

PAPER ROLL SAWS

PAPER

PRINZ PAPER ROLL

PAPERCUT

Especially developed for the paper and recycling industry, PRINZ crosscut saws rend it possible to rapidly slit paper rolls. They are also capable to cut down large diameters or cut rolls lengthwise. There is no necessity to unwind the paper roll before cutting. The paper rolls are re-sized in an efficient and cost-effective way to the required length for instance to enable a further process with a guillotine.

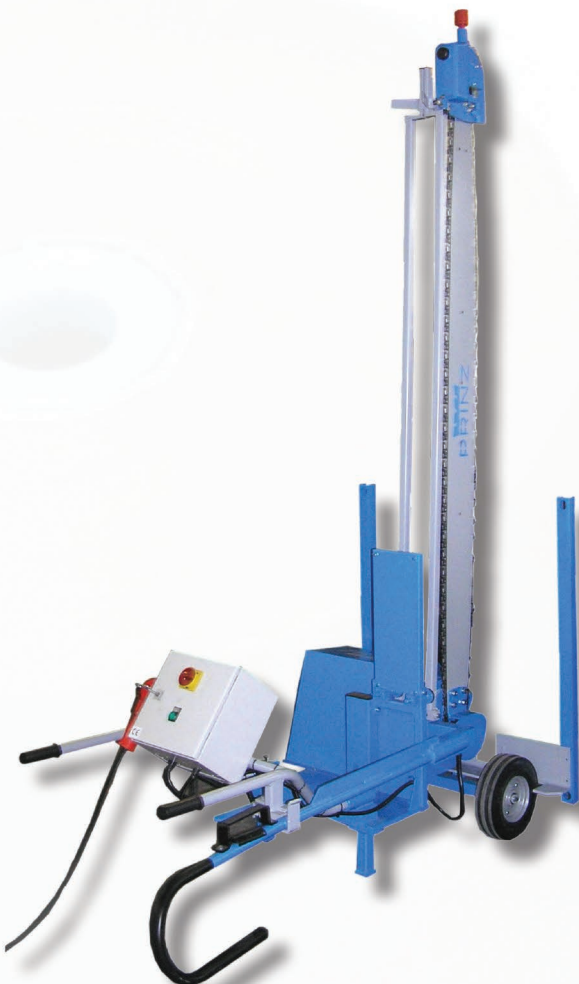

Characteristics:

- mobile saw • motor for chain drive of 7,5 kW or 11 kW • manual feed for cut
- quick chain tensioning • easy squaring for perpendicular cut
- roll diameters up to 150 cm

Benefits:

- no necessity to move the rolls • ready for use • special carbide tipped chain for highest longevity
- one-man operation • low cost of cut • cut salvage damaged rolls on site

PAPERSTAR

Equipped with an hydraulic feed for cut, the cutting process is made comfortably and without effort. Combined with a roller conveyor table, the roll can be transported and exactly positioned at the required length. PRINZ cutting equipment have been especially developed to meet the needs of the paper industry and the highest requirements in term of longevity.

Characteristics:

- motor for chain drive of 11 kW or 15 kW • hydraulic feed for cutting
- automatic chain lubrication • roll diameters up to 150 cm

Benefits:

- comfortable cutting • carbide tipped chain for highest longevity • robust construction
- no necessity to unwind the paper roll before cutting • safe working • compact design
- roll remains in a fixed position • cut off damaged ends efficiently

PRINZ CUTTING EQUIPMENT FOR THE BEST CUTTING RESULTS

All parts of the cutting equipment are manufactured by PRINZ in Austria:
guide bars in various lengths and designs, saw chains with special tooth geometries and the matching sprockets and pulleys.

ACCESSORIES IN BEST QUALITY

PRINZ offer you the maintenance and sharpening of your chains to guarantee the best cut result during the whole life span of your chains. We inform you gladly about our comprehensive service.

RIVETING AND UNRIVETING TOOL

for quick, simple chain repair • suitable for all scraper and chipper chains

CHAIN SHARPENER

manuall or full automatic • exact sharpening to extend the service life of your chain

PEG

PRINZ PEG equalizing device is best suited for optimal repair and maintenance of all guide bars

Errors and misprints excepted.
